JUCAD — FOUNDER OF THE DESIGN CLASS

Over the past 44 years, the family-owned JUTEC Biegesysteme GmbH & Co. KG has successfully positioned itself on international markets with its luxury trolley brand JuCad. This highly innovative company was able to establish their trolleys in the luxury category in no time at all.

This German golf sports success story began in 1988 with the first collapsible designer golf trolley made of stainless steel with a 3-spoke rim. In 1998 JuCad developed the first electric trolley made of stainless steel, with cables and motors integrated invisibly in the axle. This marked a new milestone in the golf trolley industry and at the same time introduced a further technical innovation - the „invisible“ placement of both battery and control unit inside the golf bag.

With an array of award-winning product highlights, JuCad takes a leading role through unique designs and ideas. Today, the JuCad brand stands for innovative strength, exclusive design, a wide range of colours and perfection. This also applies to the cleverly designed accessories and JuCad golf bags. Since 2003, JuCad has designed a wide range of golf bags to suit every requirement and every occasion, making the company one of the largest bag manufacturers in Europe.

With many years of experience in crafting golf trolleys, the JuStar brand complements the market since 2012 with its simple elegance and proven technology at an exceptional value for money.

STYLE, COMFORT AND PERFECTION COMBINED

For more than four decades, we have been manufacturing tube bending systems for the automotive and aircraft industries, metal construction and many other applications. Since 1988 we use this expertise for producing our golf trolleys.

With many years of experience and an aesthetic and functional vision, we are well positioned to achieve the highest standards for a perfect combination of design and materials. With unique vertical integration, we process four precious materials: titanium, stainless steel, aluminium and carbon. For our technically sophisticated trolleys, we combine state-of-the-art machine precision - for consistently high quality - with delicate craftsmanship of utmost competence. State-of-the-art technology and the use of exclusive materials make every JuCad trolley an original with a lasting value. This is also what you experience with our first-class customer service, which never loses sight of the people beyond our products. This conveys a reassuring feeling in both our partners and ourselves.

The unique designs are created for golfers who appreciate superior quality. Highly efficient technology, such as intelligent positioning of the high-tech motors in the trolley axle, ultra-light weight, tailor-made packing dimensions - foldable or easily disassembled into very small units - and consistently elegant design, make each JuCad trolley an outstanding masterpiece. For the past 20 years, this globally successful, more than 100 employees strong, family business has been managed in second generation by Kira and Dipl.-Ing. Jörg Jung, MBA.

The wishes of our customers are our motivation to constantly improve and develop the right trolley for every customer. JuCad is the first manufacturer in the golf industry to offer their customers a personal trolley configurator online, thus reflecting the requirements and wishes of each customer. The JuCad brand is a hallmark of colour variety and has invigorated fairways with refreshing trolley and bag designs from the start. Hand-crafted in Germany.

THE JUCAD GOLF WORLD

We invented the designer golf trolley and continue to shape its future with passion. We create sustainable value with our vision, integrity and idealism. Innovative products of the highest quality, long-term partnerships and ecological responsibility go hand in hand. Our JuCad trolleys are manufactured at five locations in Germany. Our vision of luxury design is a great love for the materials, highly intelligent design and a desire for simplicity and sustainability – Hand-crafted in Germany.

At the ultra-modern **JuCad Center** with its 2000 m² exhibition and service area, our JuCad team offers comprehensive advice on the vibrant variety of JuCad products and dealer training. The premises showcase the JuCad and JuStar range of trolleys along with golf bag models and accessories. The service centre located on the second floor is equipped with state-of-the-art technical tools.

JUCAD IS A WINNER

	 <p>reddot award 2018 winner</p>		<p>Member of  Rat für Formgebung German Design Council</p>
		 <p>PLUS X AWARD BESTE GOLF-EQUIPMENT-MARKE DES JAHRES 2017</p>	 <p>In its Brand Study of 2018, the European Brand Institute confirms JuCad as Number 1 brand in the golf trolley category.</p>
	<p>JuCad was the first manufacturer of golf trolleys to be accepted into the renowned German Design Council. For over 70 years, the German Design Council has been an institution in the German industry - with over 330 renowned members whose products all have one thing in common: uniquely sophisticated and elegant design. The Council is one of the world's leading centers of excellence in design and - like its members - is committed to fair competition.</p> <p>More than 18 design and brand awards, presented by independent juries from the corporate, scientific, consulting and service sectors, honour the JuCad brand and its unique trolley design. The original design always attracts imitators, but is never rivaled. JuCad has been awarded the „Brand of the Century“ in the golf trolley category for three years. Another milestone in the luxury segment.</p>		

The Major German Brands 2024

HIGH-END CUSTOM MATERIALS

As the only manufacturer worldwide, JuCad produces their trolley frames in the 4 exquisite materials: titanium, carbon, stainless steel and alu+.

TITANIUM

A premium material with a unique look. Super light material, elegant and extremely durable.

CARBON

Extremely lightweight, state-of-the-art, robust material with exceptional flexibility in design and visual design options.

STAINLESS STEEL

Robust stylish material with a classic look.

ALU+

Outstanding lightweight material with a sophisticated look and superior strength thanks to high-end aluminium alloy.

WITH OUR RELIABLE JUCAD BATTERY YOU ARE SURE TO RECEIVE BOTH POWER AND TOTAL SAFETY.

The small compact power pack of only 1.3 kg, with a high-performance lithium battery and rapid charger, easily fits into any golf bag. Including energy recovery and a range of up to 45 holes, tested and certified to meet all legal transport and safety regulations.

Your safety is our top priority, especially if you want to exchange your battery cells. Our certified partners have the JuCad certificate and are therefore authorised to exchange the original JuCad battery cells in the JuCad Powerpack on behalf of JUTEC Biegesysteme GmbH & Co. KG. JuCad caddies are meticulously handcrafted. We and our authorised partners take just as much care with the lithium-ion technology, ensuring that all safety aspects are observed.

JuCad battery cells and control electronics as well as the charger are harmonised, tested and certified in compliance with UN Transport Test BU-202100303-B1, fulfilling all legal transport and safety regulations. We ensure that only original JuCad parts are used and that full safety and warranty are guaranteed.

Your safety is of utmost importance to us. Replace your JuCad rechargeable batteries exclusively at certified dealers, recognisable by the JuCad certificate!

Frequent flyers have the option of a certified flight battery as an additional power pack. See page 67.

ELECTRIC TROLLEYS – ELECTRIFYING IN EVERY DETAIL:

Technical masterpieces, handcrafted in Germany to satisfy the most discerning demands.

- Stepless, ergonomic speed control
- Charge state display and distance control button for 10, 20, 30 metres
- Rotary control switch for drive, reverse and neutral functions

SHOW YOUR COLOURS WITH THE MODERN JUCAD WHEEL

1 Comfortable technology

The original JuCad wheel is simply plugged in – nothing more simple than that!

2 Tyres

When ordering a new trolley, these tire colours are available at no extra charge. The tyres can be changed at any time. (€ 70 for 2-wheel models, € 89 for 3-wheel models).

The original JuCad wheels are available in many colour combinations designed to match the exclusive JuCad golf bags. Rim and tyre colours can be freely combined, without surcharge. The JuCad wheel has a tyre profile specially geared for golf course conditions – the tyres can be changed at any time.

2

3 Wheel rims

Our range of colours caters for all tastes - available at no extra charge to match your golf bag and outfit.

4 Winter sleeves

JuCad winter sleeves allow you a comfortable and secure round of golf even in the cold season. The rubber spikes on the tires reduce ground contact by up to 75%, which allows a fairway-friendly driving and prevents spinning of the wheels. The 2 winter sleeves can be drawn quickly and easily over the rear wheels of your JuCad trolley.

art. no. JWR, € 59

5 JuCad wheel bag

Your JuCad rear wheels are neatly stowed away inside this practical wheel bag. Size 34x34 cm / 13.5x13.5 inch, including shoulder strap. Colour: black.

art. no. JR, € 39

6 JuCad wheel bag

In the practical wheel bag made of tear-resistant nylon with quick-release fastener, you can store your wheels quickly and space-savily. This keeps your caddy box and your car always clean. Colour: black.

JUCAD TROLLEY ACCESSORIES

1 JuCad remote control for more driving pleasure

The trolley can be controlled at any time either by the stepless turning control on the handle or with the clearly layed-out remote control for movement in any direction. Your golf equipment is therefore always at the right place sparing you unnecessary walking. Every JuCad remote control has its own unique transmission code to prevent misdirection – beyond the transmission range the trolley will come to an automatic halt. The JuCad remote control is an optional extra for all electric JuCad trolleys.

art. no. JFS2, € 449

2 Engravement

All JuCad trolleys made of titanium, stainless steel and carbon can be provided with a personal etching.

art. no. JÄTZ, € 20

3 JuCad rubberized trolley handle / cold protection

With the new weatherproof JuCad handle protector cold hands are a thing of the past. For all JuCad electric trolleys.

JUCAD TROLLEY ACCESSORIES

1 JuCad 2 in 1 smartphone holder with umbrella extension

The perfect universal mobile phone and umbrella holder. Simply mount on your trolley and attach your umbrella and mobile phone in seconds. The shock-absorbing, non-slip silicone straps with anti-twist protection provide secure hold and are compatible with all standard smartphones with screen sizes of up to 8 cm width and 16.5 cm length. Operability remains unrestricted, Face ID and Touch ID are compatible. Smartphone and holder can be detached from the trolley with a simple twist. Insert the JuCad umbrella pin into the umbrella extension to create an extra 10 cm of space under the umbrella and keep your smartphone and digital scorecard in view at all times.
art. no. JUHS, € 129

2 JuCad Velcro smartphone holder

The Velcro support ensures stable and secure hold. The counterpart is attached to the handheld device. Also suitable for other technical devices.
art. no. JGPSH, € 40

3 JuCad bottle support

The practical bottle holder keeps your drinks always at your fingertips. Suitable for all JuCad trolleys, easy self-assembly.

Diameter 7 cm / 2.8 inch

art. no. JFH2, € 18

The JuCad insulated bottle can be found on page 125.

4 JuCad smartbag

This practical accessory bag for all JuCad golf trolleys accommodates golf accessories and valuables in two divided compartments. The top section features an additional zipped compartment, in the lower section a separate cool bag compartment will keep your drinks cold. Velcro fasteners for easy attachment to any JuCad trolley.

Dimensions: 21.5x15.5x34 cm / 8.5x6.1x13.4 inch.

art. no. JAC2, € 59

5 JuCad accessory bag

Golf accessories can be stowed away quickly in the practical accessory bag, and are always within reach. Easily installation to the trolley through a Velcro fastener. Dimensions: 36x15 cm / 14.2x5.9 inch diameter.

art. no. JAC, € 39

6 JuCad dog leash

The elegant dog holder with automatic retractor system avoids entangling of the leash and always keeps the right distance. Length: 65 cm / 25.6 inch, includes spring hook. Suitable for all JuCad models.

art. no. JHH, € 40

JUCAD CLEANING AND CARE

All JuCad trolleys benefit from proper maintenance. Here are a few tips to help you enjoy your JuCad trolley for a long time to come:

Although the trolleys are largely maintenance-free, regular and proper care is recommended, especially when used frequently. All moving parts and the trolley's axle connections are coated with a transparent lubricant film at the factory to ensure maximum driving and operating comfort. This transparent lubricant film may darken over time, so it is worth cleaning the relevant areas occasionally.

During a round of golf, grass, dirt or sand will accumulate on the trolley. After use, it is best to clean your trolley with a slightly damp, soft microfibre cloth. Wheels can be cleaned with an air pressure device, a damp cloth or - when detached from the trolley - individually in water. Electric trolleys should generally not be cleaned with a pressure washer. If a trolley ends up in a water hazard, please do not continue to use it even if it is still in working condition, but contact JuCad Service immediately and follow the tips and instructions to avoid consequential and long-term damage.

To ensure that plug-in and folding connections as well as joints and wheel suspensions continue to run smoothly and easily, they should be cleaned regularly. For this, JuCad recommends the very effective care set (p. 67) with special cleaner and care & protection fluid for all golf trolleys made of titanium, carbon, stainless steel and aluminium.

During the winter period or longer breaks from playing, it is recommended to store the battery fully charged in a cool and dry place. The optimum storage temperature is between 10 and 20 degrees Celsius. Freezing temperatures below 0° C should be avoided during longer storage periods. JuCad recommends disconnecting the Powerpack from both charger and trolley during the winter or storage period.

1 JuCad maintenance kit

For cleaning and protection of all JuCad golf trolleys in titanium, stainless steel, aluminium and carbon. Comprises special cleaning liquid, micro lubrication with nano-coating, axle protectors with cleaning fleece and microfibre cleaning cloth.

art. no. JPS, € 35

2 JuCad flight battery

Certified flight battery (98.3 WH) for your travels, available as an additional Powerpack including charger.

art. no. JREISEPP, € 649

3 JuCad Powerpack - battery bracket

The handmade stainless steel powerpack battery holder is easily attached to your electric trolley. Suitable for all JuCad Powerpacks.

JuCad recommends the storage of the battery within the golf bag. All our golf bags are provided with an additional pocket for the Powerpack at the back, in order to enable an optimal weight distribution for the trolley. The placement inside the golf bag provides following advantages:

- The elegant and sporty design of the JuCad trolley remains unchanged
- Of protection against vibration and humidity foster an extended lifetime of the battery
- An accumulation of mud, sand or grass is prevented – the clean solution

JUCAD BAG FIRST CLASS A TRULY FIRST CLASS BAG

This premium bag with its elegantly quilted retro-look exterior and water-repellent, leather-effect surface is packed with features. The two front outer pockets can be opened easily and quickly with magnetic clasps. The top pouch with magnetic closures provides super-fast access (e.g. for the rangefinder) and can be detached with a Velcro fastener which conceals the bag fasteners underneath. Thanks to the magnetic clasp, the spacious drinks compartment can also be accessed easily. Your valuables are safely stored in an internal zip pocket which can be secured with a lock, while various other accessory compartments facilitate handling during the game.

€ 399

DETAILS:

- > water-repellent fabric with high-end magnetic closures and zippers
- > 14 full-length club divisions, 9 inch
- > Integrated oversize putter compartment

DISCOVER OUR WIDE RANGE OF ACCESSORIES

JUCAD PUTTER PRECISE AND ACCURATE

1 JuCad putter X900

The noble design of this stainless steel JuCad putter is eye catching. Striking are the CNC-milled face and the dual finish in glare-free mat optic. The middle pin is available in two colours and continues the target line for a precise alignment. The JuCad jumbo putter grip of the X900 ensures a firm hold and provides additional confidence and control on the green. A surprisingly forgiving and easy to play putter for a perfect feeling on the green. The JuCad X900 can be offered with a personal or name engravement (up to 20 characters on each side). With a mat black or mat white pin. Head weight: 365 g. Available in 32-36 inch, standard size 35 inch.

art. no. JPX900-S (with black pin) € 220

art. no. JPX900-W (with white pin) € 220

2 | 3 | 4 JuCad putter X stainless steel

All JuCad's stainless steel putters are precision-milled from a single piece thus ensuring a stable and sensitive putt. The continuous target line and matt, glare-free finish facilitate alignment. The CNC-milled face allows for constant ball-roll of the ball and optimal distance control. The putters come equipped with a JuCad jumbo putter grip (in a variety of colours). The soft-grip material sits comfortably in the hand and guarantees maximum security and comfort on the green. Putter lengths available from 32 to 36 inch, standard size 35 inch.

€ 200

Three versions are available: the Blade Putter with an extra-narrow head, the Half-mallet Putter and the Mallet Putter featuring a large rearward tapering head.

JUCAD PUTTER PRECISE AND ACCURATE

5 | 6 | 7 JuCad putter X matt black

The matt black putter series features high level craftsmanship and stands out through its sporty, elegant design. Precisionmilled from a single piece, the triple-line layout – especially the solid red sight line – and the matt glare-free head contour support precise alignment. The grooved striking face intensifies ball contact and ensures a well-controlled, straight roll of the ball, even at a distance. The putters are equipped with a JuCad jumbo putter grip. The soft-grip material sits comfortably in the hand and guarantees maximum security and comfort on the green. Grips can be chosen from a variety of colours. Putter lengths available from 32 to 36 inch, standard size 35 inch. **€ 250**

JUCAD GOLF ACCESSORIES & GIFT IDEAS

1 JuCad golf balls

Our new, aerodynamic JuCad golf ball - reliable from tee-off to green. Maximum ball speed, absolute control and consistent trajectory, designed for the most discerning golfers. The 3-piece Premium Tour Performance Ball by JuCad is suitable for all handicaps. A high-energy rubber core with a low compression provides an exceptional ball feel and maximum ball speed. A layer of titanium condensed hybrid ionomer reduces spin on long shots. The durable Surlyn cover with 352 dimples ensures a stable trajectory and maximum flight time. Enjoy the perfect game with a soft ball feel and absolute control with the JuCad golf ball. 12 pc.

art. no. JBALL, € 24

2 JuCad telescopic ball retriever

The JuCad telescopic ball retriever allows you to retrieve golf balls, otherwise unreachable in water hazards or the rough. This investment pays off after only a few retrieved balls.

2 a | JuCad telescopic stainless steel ball retriever with durable plastic basket and soft JuCad jumbo grip allowing simple and convenient handling. Easy to use, ultra-light and fits into every bag. Minimum length: 43 cm (1.4ft), 7 section twist and lock shaft, length up to 2 m (6.5 ft).

art. no. JTBA2, € 25

2 b | JuCad telescopic aluminium ball retriever, very robust, with metal basket. Easy to use, ultra-light and fits into every bag. Minimum length: 1.10 m (3.6 ft), 3 section twist and lock shaft, maximum length: 3,65 m (12 ft).
